Planning application comments

S/2384/06/F

337 - 341 High Street, Cottenham – Conversion of Garage to Provide Annexe and Replacement Store

We support the replacement of concrete pantiles with natural slate and the proposed changes to the roof structure. However, we suggest that blackened oak or elm weatherboarding may be more locally appropriate than the proposed natural cedar. The Design Group view this proposal as an enhancement to a modern garage building located within a sensitive part of the Conservation Area.

'Buildings should be maintained using original or sympathetic materials and details.'
(Cottenham Village Design Statement p.22)
